

**CENTER FOR  
TEACHER  
INNOVATION**  
transforming the journey

**"The induction process through the Center for Teacher Innovation has helped me document my growth as a new teacher. The tasks are focused on meaningful and useful skills that I can use throughout my career."**

**Craig West, Teacher,  
Perris Union High School District**

## **Induction Services** **Preparing New Teachers to Succeed**

Our fine-tuned induction programs deliver exactly what teachers need – direct alignment to 21st century skills, a specific concentration on Common Core State Standards and a strong foundation on the California Standards for the Teaching Profession. Additionally, our programs reduce redundancies perceived by teachers as reminiscent of their teacher preparation programs.

Our cornerstone is our reflective coaches, experienced mentors assigned to each induction candidate. This powerful one-on-one mentor model has proven to yield tremendous teacher success and student achievement.

### **Comprehensive Teacher Induction**

CTI offers two Commission-accredited induction programs as a route to a clear credential. Our General Education Induction Program is for teachers with preliminary multiple subjects or single subject credentials and the Education Specialist Induction Program is for special education teachers. Each can be completed via an online or blended path. Both paths include individualized support from a carefully selected, highly trained reflective coach.

- **Online path** provides an innovative online structure and is the perfect option for teachers who are looking for a personalized, self-directed, technology rich program with the support of an online coach.
- **Blended path** provides an experienced, agency-based reflective coach who supports the candidate through the program. Program candidates experience meaningful and manageable cycles of inquiry while using technology and teaching connections to advance their skills.

### **Education Specialist Induction**

The Education Specialist credential is for special education teachers with authorizations in Mild/Moderate, Moderate/Severe, Early Childhood Special Education, Deaf and Hard of Hearing, or Visual Impairment specialty areas.

### **Private School Teacher Induction**

Candidates not only work through the California Standards for the Teaching Profession, they also learn to embody the mission of their individual schools' teaching contexts.
